## Welcome to our project

In this special edition of the Climate Champions Project Newsletter, we reflect on our journey and say goodbye to a significant chapter. We're here to share our accomplishments, appreciate your support, and look forward to what lies ahead. Thank you for your involvement.

The Climate Champions project is an Erasmus+ Adult Education project working to empower and equip members of the local community and voluntary groups with the skills and knowledge to become empowered climate action and biodiversity changemakers in their own communities.

*Biodiversity is the greatest treasure we have... Its diminishment is to be prevented at all cost.*

**THOMAS EISNER**

## Climate Champions - A Fond Farewell

As we bid farewell to the Climate Champions Project, we want to take a moment to reflect on the incredible journey we've embarked upon together.

For the past two years, the Climate Champions Project has been a beacon of hope and a driving force for positive change in the realm of environmental sustainability. We've come a long way, and it's time to celebrate our collective achievements and say a heartfelt thank you to all who have been a part of this transformative journey.

### Reflecting on Our Achievements

Over the duration of the project, we've accomplished remarkable feats, such as

- **500+ INDIVIDUALS COMPLETING THE ONLINE COURSE**
- **300+ ADULT EDUCATORS USING THE COURSE IN CLASSROOM LEARNING.**
- **300+ PEOPLE DOWNLOADING THE COMPENDIUM OF GOOD PRACTICES**

These milestones have been made possible through your dedication, passion, and unwavering support. Your commitment to championing climate action is

making a difference.

The Climate Champions community has been a source of inspiration, collaboration, and friendship. We've come together with a shared goal: protecting our planet. The connections we've formed and the ideas we've shared have been truly uplifting.

Project training event in Thessaloniki, Greece

## A Final Look at our Project Outcomes

We had three main results for the project they were:

**RESULT 01 - Training Resources to be empowered as a community climate champion!**

**RESULT 02 – Communities in Action Compendium**

**RESULT 03 - Theory of Change Toolkit for Communities**

[See all the Project Results Here!](#)

### **RESULT 01 - Training Resources to be empowered as a community climate champion!**

Across Europe there is a lack of awareness, understanding and practical information available for adult educators and those who wish to be active within the fight against climate change.

Our 6-module course is aligned to the SDGs and responds to these needs through our free, open access materials, with everything you need to become educated and empowered to be an advocate for climate change action within your community!

And a Facilitator's Guide to make it easy for educators and communities to utilise the training resources.

## RESULT 02 - Communities in Action Compendium

Communities everywhere are vulnerable to climate change and reductions in biodiversity.

Adults feel powerless to effect any meaningful change because of the sheer size and scale of the climate change and environmental impact issues and a lack of skills regarding where to start.

This compendium consolidates **32 INSPIRATIONAL CASE STUDIES** collected from biodiversity and climate action changemakers at the community level throughout Europe.

### [Download the Compendium Here:](#)

In this comprehensive report, you'll find:

- 32 Inspiring Case Studies!
- Proven Success Stories!
- Practical Solutions!

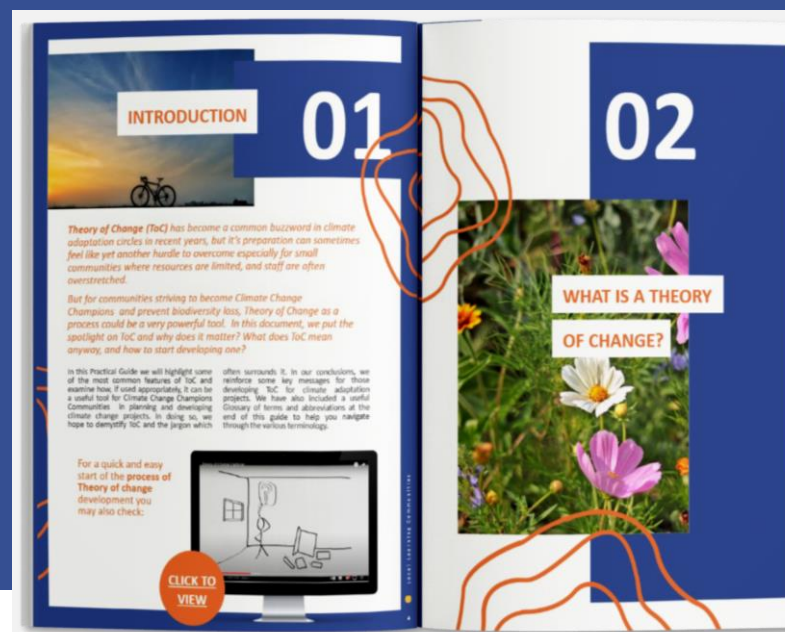

## RESULT 03 - Theory of Change Toolkit for Communities

It is easy to feel overwhelmed in our communities – whatever we do is so small in the massive perspective of climate challenge.

**The Theory of Change Toolkit for Communities** allows community volunteers to benefit from backward mapping, taking backward steps from their long-term goal to intermediate actions and then to early-term changes which are required to result in desired change.

Many activities fail because they are built on good intentions but are ill-defined or ill-designed to effect real change. Taking small steps and making small incremental changes over the long term can have the largest impact of all.

## Our Journey in Pictures

We've put together a collection of images to share the memorable moments of our Climate Champions Project.

These photos provide a glimpse into our journey, the people involved, and the positive impact we've achieved.

## FOLLOW OUR JOURNEY

While the project may be ending, our commitment to climate action lives on. Together, we'll carry forward the spirit of sustainability and continue to champion a greener world. Thank you for being a part of this incredible journey!

The partnership of the project consists of the following organisations:

- Roscommon Integrated Development Co. Ltd t/a, Ireland (<http://www.rosleaderpartnership.ie>)
- ANATOLIKI S.A.-Organization for Local Development, Greece (<http://anatoliki.gr/el/>)
